Final Year Project (TPR3321/ HRD3019) Title Requisition Form**

Student's Detail

Student Name	CHEONG JI XIANG	Student ID	1201300548
Programme / Major	Security Technology (ST)	Trimester/ Session	Phase 1: Trimester 1 2022/2023 Phase 2: Trimester 2 2022/2023
Email	calvincheong277@gmail.com 1201300548@student.mmu.edu.my	Contact Number	+601139688917

Selected Project Detail

Project ID/ Title T801932 : COMPUTER CENTRE RESERVATION SYSTEM

Descriptions

This project is to develop a web-based computer centre reservation system. In this era, computers are widely available in many homes, but not everyone has a computer, and not even everyone has a very good computer. Even people with good computers don't necessarily have fast internet. Therefore, many people will choose to go to the computer center to borrow a computer to work, play, watch movies, etc. Before use the application, user need to register with their information, After registered, they can start to book for a seats. The system will have the time, price, etc. in a list to let the user choose to book. The information like passwords are encrypted, phone No and email are hidden and only reveal to staff of the computer centre to protect the user, so these information are not public to all. But the booking name and time are available to all user to check. In addition, all computers will have their own passwords, the passwords will also be encrypted and recorded in the application, and the passwords will only be revealed to the relevant users. For some computer centre, they may serve some can drink and user can order the snacks on top of their reservation.

Objectives

To develop a web-based computer centre reservation system
To ensure the customer's privacy information is protected with security mechanism.

Supervisor Khoh Wee How Confirmation Date: 2022-10-05 03:52:31

I accept to supervise the student.
